PERSONAL PROJECTS

LIBRARY MANAGEMENT SYSTEM

- In this project, ebooks have been created for every subject and for every class on the basis of their courses and semester. This has been done using HTML, CSS, Javascript and PHP. Every student has their login details and a profile is created once they logged in. They can access any of the ebooks as per their requirement.

GYM WEBSITE and SUPPLEMENT STORE

- In this project, multiple services are offered to the clients and every little detail is mentioned regarding the gym. One can create or register to avail services or can contact the owner. This has been done using HTML, CSS, Javascript and PHP. The customers can also order or view supplements as it has full functionality. One can review items, add them to cart and pay through a secure portal.
